

## Private Voice Lessons

Nothing enhances any educational endeavor like private tutoring, whether in sports, academics or music, the best progress is achieved through one-on-one contact with a professional teacher, trainer or coach. I hope each choir student will talk with his/her parent(s) about the possibility of taking voice lessons.

Below is a list of private voice teachers. It is not complete and shouldn't be considered as an endorsement of any of these teachers or their work. The best way to choose a teacher is to talk to some of his/her students, and if possible, observe a lesson or two.
